SUMMARY

As a dedicated Software Developer specializing in .NET and automation technologies, I strive to creatively solve problems while constantly enhancing my technical skills. With experience in SCADA systems and various programming languages, I am committed to leveraging my expertise in challenging projects to deliver high-quality solutions. My goal is to contribute effectively to technical teams while fostering innovation.

EXPERIENCE

Aaryak Solution   Ratnagiri
Intern   09/2020 - 12/2020

Protovec Technologies   Ratnagiri
Software Developer   06/2022 - 12/2023

Mitsubishi Electric   Pune
Engineer   01/2024 – Ongoing

PROJECTS

REPORT GENERATION & MANAGEMENT   01/2023 - 12/2023
REPORT GENERATION G MANAGEMENT application for Rahul Rack-line.
- Created a .Net application for generating production reports.
- Utilized WPF and MVVM for report generation based on user selections.

TRACK & TRACE   01/2023 - 12/2023
Vapi
TRACK G TRACE application for KEI INDUSTRIES.
- Developed a .Net application for keeping track of products in shipping process.
- Implemented scanning product capabilities and both offline and cloud tracing.

ENERGY METER SYSTEM   01/2023 - 12/2023
Pune
ENERGY METER SYSTEM for SKF.
- Developed SCADA screens and dashboards for energy data management.
- Stored historic data and generated departmental energy consumption reports.

ACTIVE SYSTEM MANAGEMENT   01/2023 - 12/2023
ACTIVE SYSTEM MANAGEMENT application.
- Built a real-time data viewing application for user data on Mind sphere Cloud.
- Designed dashboards using Mendix low-code technology.

COLLEGE EMPLOYEE MANAGEMENT   01/2023 - 12/2023
COLLEGE EMPLOYEE MANAGEMENT for Finolex College.
- Designed a web application for managing college employee data.
- Merged the application with the college website.

ADVANCE GLOVE FOR BLIND PEOPLE   01/2023 - 12/2023
ADVANCE GLOVE FOR BLIND PEOPLE.
- Created a glove-like device for blind people that alerts obstacles.
